Program Test Authority

Dear Applicant:

This letter is in reference to KCSI's request for program test authority ("PTA") filed September 22, 2010, and the simultaneously filed application for license to cover Construction Permit BMPH-20081020AGL.

A review of KCSI's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPH-20081020AGL, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KCSI's license application. The effective radiated power is 26.0 kilowatts (H&V) and the transmitter power output is 5.0 kilowatts.

Sincerely,

Rodolfo F. Bonacci
